

Advanced ways to affix the MSDS* to your product.

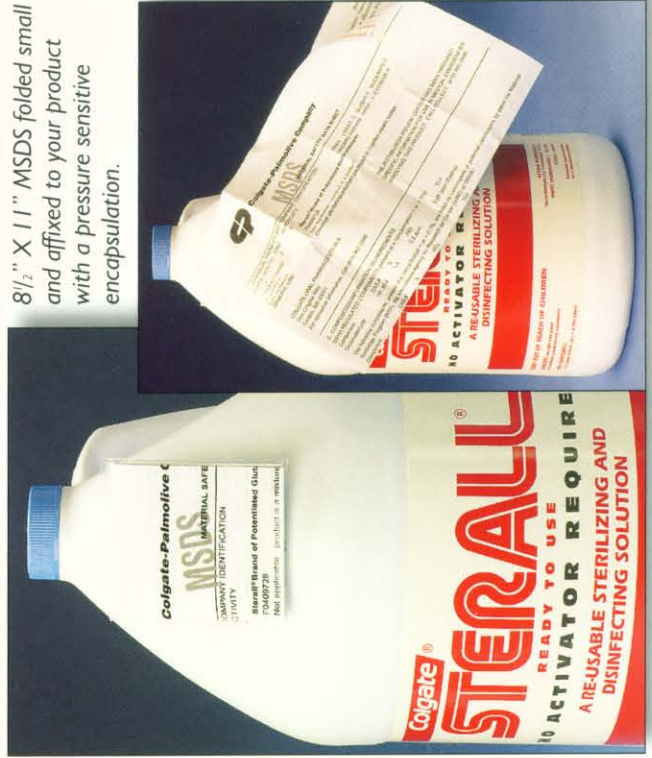

It makes good legal sense!

There are many ways to provide an MSDS* ... mail, internet, fax, thrown in the box, handed out by your distributor ... but the most legally wise way is to affix it to your product. This guarantees that the most up to date MSDS is readily available to your end users making your product safer. It gives your company a better legal argument if litigation occurs.

JH BERTRAND INC

JH Bertrand Inc. offers a special line of foldout labels and encapsulations that allow you to affix the MSDS securely to your product.

8 1/2" X 11" MSDS folded small and affixed to your product with a pressure sensitive encapsulation.

Excellent Pricing For Short Runs!

The MSDS shown as a separate insert behind the Directions For Use (DFU). Both inserts together make a powerful product label! A printed label underneath both inserts keeps the product identified when the inserts are removed. (Mega Label)

A mini MSDS "foldout label" designed to affix on small products or in tight areas!

*MSDS - Material Safety Data Sheet

Stop worrying about the MSDS getting to your end users. Affix it to your product to be absolutely sure that they get it!
