

Copy Expansion Labels for Medical Products

Medical Chemical;
JNJ; Cidex Data-Necker. (hang tag)

When technical, multi-lingual, regulatory or instructional copy becomes too much for your product, we have sophisticated label systems to expand your copy space.

Manufacturing in “lab” like conditions.

Animal Health;
Pfizer; booklet label.

Most of our equipment is geared for short and medium runs.

All our medical label systems are manufactured in “lab” like conditions. Our staff wears green scrubs with head and foot protection to maximize cleanliness and order.

Quality Assurance: Locked cages, security cameras, inspection stations, cGMP procedures, active pest control program and protective clothing on all personnel.

Neutraceutical;
Neck tag/pill pouch combination affixed to animal product for promotion.

Our family business supplies customers in the animal health, clinical drug, dental, medical chemical, biotechnology, pharmaceutical and medical device industries.

**Medical
Labels
Division**

JHBERTRAND INC

Our product family includes: Booklet label and foldout labels; glued and laminated constructions. Plastic neck hangers and hang tags. Encapsulated booklets and pamphlets. Multi-ply label constructions. Taped and glued leaflets. Pharmaceutically folded pamphlets with adhesive strips.

With less than \$5,000,000 in sales, we're small enough to give you maximum control.
